

# Our “Big Bang Theory”

Indianhead Enterprises, Inc.

How many of you like where you work? If you do it is most likely due to a few major reasons. Some of these reasons may include you are good at the tasks given, you are friends with your coworkers, you feel accepted and equal to those around you. If you do not like your job it is probably due to the opposite of everything listed above. You are not good at yours tasks, you have no friends and you are not accepted.

Image now if you were Penny from the NBC show Big Bang Theory. How would you feel if your job was to be working with Leonard, Raj, Howard and even Sheldon. If you know the show, you know they portray Penny as not being very bright and the guys are all intelligent scientists. Penny probably would not last long if she was forced to work with all of them.

So where am I going with all this? Well many of you reading this may have a loved one or know of someone working at Indianhead Enterprises. For those of you reading this who do not;

**Indianhead Enterprises is an agency that provides employment to individuals with disabilities. Many of these individuals are developmentally disabled.**

These individuals, which many have worked here for 20 to 30 years, are good at the tasks given them, their coworkers are their friends, and they are accepted by and are equal to those around them. Now image if these individuals were forced into working at a place with Leonard, Raj, Howard, and Sheldon. If Penny didn't stand a chance, how much of a chance do you think an individual with a developmental disability will have. They will not be good at the tasks given, they will not have true friends as coworkers, they will not be accepted by and equal to those around them. I know this may be coming across a little hard, but sad to say, this is reality.

So once again, where am I going with all this?

**Our Federal and State governments want to eliminate agencies like Indianhead Enterprises and take all the Penny's out there and force them to work with Leonard, Raj, Howard and Sheldon. If the Penny's out there are not able to succeed, they will be forced to just sitting at home accomplishing nothing.**

Indianhead is proud of the services we provide and are proud of the individuals working here. Indianhead will continue to be vocal about everyone having the right to work where they want. We all get to choose where we work and what job we do, why should someone with a disability be any different. If an individual with disabilities chooses to work at Indianhead Enterprises, why is that different then you choosing to work where you do. Everyone, no matter their abilities, has the right to say where they work and who they work with.

If you feel the same as Indianhead Enterprises, now is the time for you to speak up.

Contact your local and State leader and let them know each individual with disabilities is an Individual and has the right to choose where they work and what job they have.
